

CLARITAS

AEGIS

Model One System – **exclusively from Claritas.**

AEGIS is a unique travel system designed specifically for Executive users and made exclusively in the UK by a veteran owned company in order to provide complete digital signature and selected physical protection whilst on the move, anywhere on the globe.

The AEGIS system comes in several parts including the Model One carry bag, Travel Safety Pack, AegiOS iPhone, AEGIS Agile International SIM & Data, Secure SmartSafe Laptop and private GSM AEGIS ATOM Router.

Features

- ✓ **All Model One systems come with two unique magnetic closure integrated faraday closures as standard which will accommodate up to our 13 inch SmartSafe laptop**, allowing the user to ensure their technology is electronically shielded when carried inside the discreet pouches. No fold over or velcro is required and the operation of the pouches is completely silent and self closing.
- ✓ **A rear secondary faraday pouch doubles up as a physical protection function** which will accept flexible and flight safe stab proof panels, which can be purchased as an optional extra.
- ✓ **The adjustable strap** is designed for more flexible carriage.
- ✓ **Branding is discreet and colours are muted** with a range of materials to include cotton, twill and leather as standard.
