

MAGNET AUTOMATE™

Automate Your Mobile and Computer Workflows

Improve service to your agency by unlocking lab capacity, creating efficiencies, and reducing time to evidence.

The Challenge

It's becoming impossible for digital forensics labs to keep up.

Increasing data volumes, evidence complexity, and resource constraints, along with the fastchanging technology landscape, are forcing you to get more done with what you have.

With Magnet AUTOMATE, enable an enhanced approach to digital examinations that scales up your existing resources and processes to complete examinations more quickly.

“Because time-to-evidence is now guaranteed inside 48 hours, investigators can identify and act on relevant material quickly – examiners are freed from repetitive tasks, and our computing power is being utilized 24 hours a day, 7 days a week.”

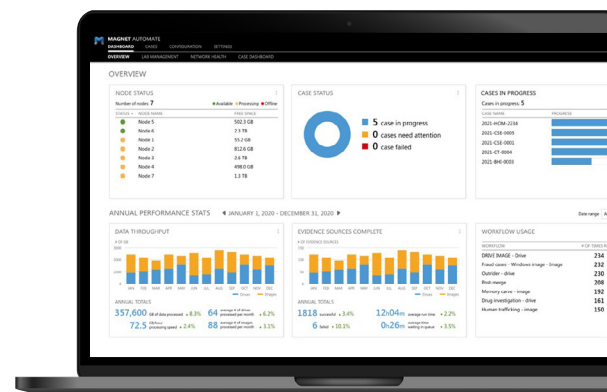

Senior Digital Forensic Specialist, Large Metropolitan Police Agency in the UK

Our Solution

Unlock Capacity in Your Lab
Complete digital forensics examinations faster by scaling your digital evidence processing 24/7/365.

Streamline Your Workflows
Easily build automated workflows across your forensic toolkit to maximize efficiency.

Leverage Powerful Analytics
Clear, visual dashboards provide you with key insights for smarter resourcing decisions.

Maximize Your Resources

Complete more examinations faster by scaling up your existing hardware and software resources and reducing manual, repetitive tasks. With AUTOMATE, you can automatically image, process, and create exports for multiple items of evidence in parallel—saving valuable time and freeing up your analysts to focus on complex analysis.

Process Digital Evidence 24/7/365

Don't let your investigations sit idle overnight or over the weekend. By automating your workflows, you can get the most out of your digital forensics lab by utilizing your computing power and forensic tools 24 hours a day, 7 days week. Build prioritized job lists to ensure that your lab is always imaging and processing data, even when you and your team aren't there.

Build Streamlined Workflows Across Your Toolkit

Seamlessly integrate any tool from your forensic toolkit, including Commercial-off-the shelf (cots) and Government-off-the shelf (gots) tools.

AUTOMATE's drag-and-drop workflow builder makes it easy to develop efficient, automated workflows across your entire forensic toolkit. For increased flexibility, you can also integrate your own custom scripts.

Ensure Case Quality

Easily adhere to standard operating procedures by empowering your expert analysts to design the workflow for each case type. Forensic technicians or junior members of the team can then kick off the right workflow from a dropdown menu while experts focus their time on analysis.

Measure, Act, and Report on Lab Insights

Clear, visual dashboards help you to quickly assess lab infrastructure health and provide you with Key insights for smarter resourcing decisions. Easily report to management on the value of your lab investments by tracking overall throughput and efficiency metrics.

ADVANCED INTEGRATION WITH MAGNET AXIOM AND MAGNET DIGITAL INVESTIGATION SUITE

- ✓ AUTOMATE amplifies the processing and analytics power of Magnet AXIOM to help you complete your examinations more efficiently and effectively.
- ✓ AUTOMATE also includes advanced integration with Magnet ATLAS and Magnet REVIEW to promote efficiency and collaboration across your examinations.
