

## MAGNET ATLAS™

# Simple, Powerful Case and Lab Management

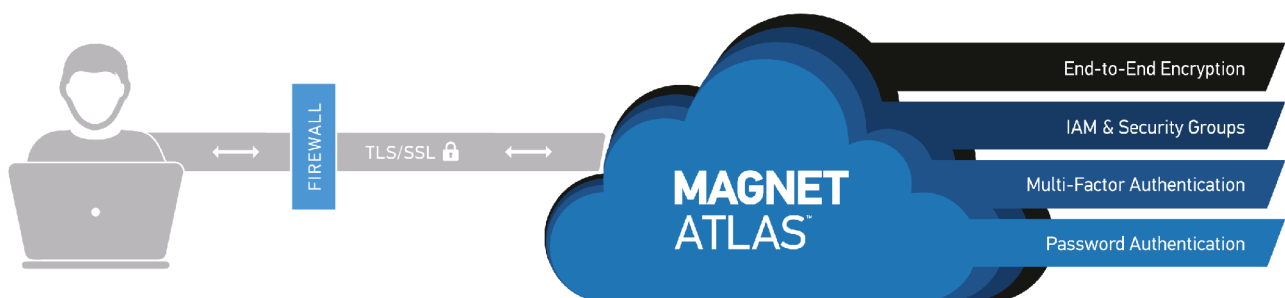

Bring together evidence management, resource and workforce management, ticketing and case submission management, and more. Simplify and consolidate digital forensic case and lab management.

## Security Overview

Magnet ATLAS Cloud leverages the industry leading cloud infrastructure of Amazon Web Services to facilitate robust security, encryption, and audit capabilities while providing an unparalleled geo-specific case management service.

ATLAS incorporates decades of investigative experience into its design and works to protect the sensitivity and confidentiality of your data while keeping it globally accessible to your team.

**Scalable.  
Durable.  
Secure.**

## ATLAS Security Features

FEATURE	DESCRIPTION
Encryption in Transit	ATLAS protects data in transit between a workstation and the Cloud with TLS/SSL encryption.
Encryption at Rest	All ATLAS data is secured in the Cloud with AES-256 encryption.
Security Certifications	ATLAS is built on the industry leading Amazon Web Services platform. AWS has multiple security certifications including: ISO 27001, ISO 27017 and ISO 27018. For more information on AWS certifications visit: <a href="https://aws.amazon.com/compliance/programs/">https://aws.amazon.com/compliance/programs/</a>
Permissions	ATLAS offers a role-based user system and optional multi-factor authentication in order to access cloud data.
Redundancy	The ATLAS cloud application and database servers are replicated across multiple instances and three availability zones. ATLAS data is also stored and versioned in S3 with 99.999999999% durability.
Availability	Multiple load balanced and auto-scaling application servers provide reliable connectivity even in the event of a potential hardware failure.
Disaster Recovery	Database snapshots are maintained for 30 days and can be used to rapidly restore your environment.

## ATLAS Overview

With ATLAS, all parts of your organization work in unison to provide greater efficiency. It combines every facet of case management, ensuring that case data, asset tracking financial information and more can be shared quickly and easily.

ATLAS enables you to manage case submissions and work tickets in three easy steps:
