MAGNET REVIEW®

Collaborate on Evidence Review From Anywhere

Accelerate digital evidence review by enabling secure agency-wide collaboration from anywhere, anytime.

The Challenge

Growing data volumes and a larger-than-ever remote workforce have made it more difficult to enable effective collaboration on digital evidence review.
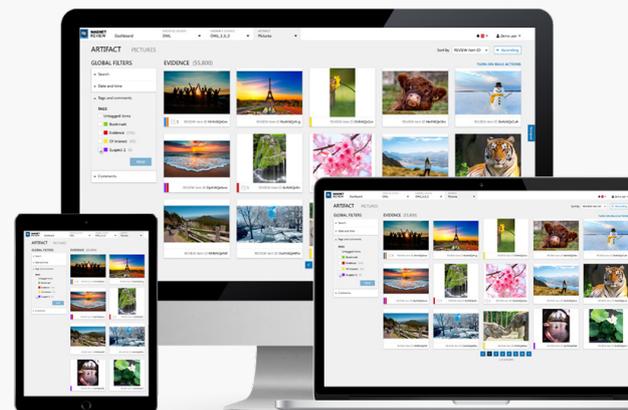

With Magnet REVIEW, investigators and other agency stakeholders can be empowered to easily and securely collaborate and quickly find the evidence that matters.

"The Met is committed to being a leader in the digital transformation of policing. Our collaboration with Magnet Forensics and Microsoft aims to ensure that digital evidence critical to investigations is reviewed in a simple, timely, effective and secure manner to ensure justice is achieved."

DARREN SCATES
Chief Technology Officer, London's Metropolitan Police Service.

Our Solution

Collaborate From Anywhere
Enable stakeholders to securely access evidence from anywhere, anytime.

Streamline Evidence Review
Review all of your digital evidence together in one intuitive platform.

More Transparency, Less Risk
Generate proof points to show that processes and search scope were adhered to.

MAGNET REVIEW®

MAGNET FORENSICS®

Collaborate on Evidence Review From Anywhere

REVIEW helps you get evidence into the hands of all your stakeholders quickly and easily, so they can work together to complete your investigations faster. Eliminate travel and shipping-related costs by providing secure remote access to case evidence from anywhere, anytime.

Quickly Find the Evidence That Matters

REVIEW was purpose-built for non-technical users. They can easily browse, search, and filter evidence with an intuitive interface that works on any web browser. You can also add tags and comments to evidence items that other collaborators can instantly view and surface valuable insights with powerful analytics views to further accelerate evidence review.

Streamline Evidence Review Across All Your Sources

With REVIEW, you can import evidence from AXIOM and other digital forensic tools, such as XRY or UFED, so investigators can easily review all their evidence in one case file. Uniform reports can be created across your evidence sources to save time and eliminate the need to train reviewers on multiple tools.
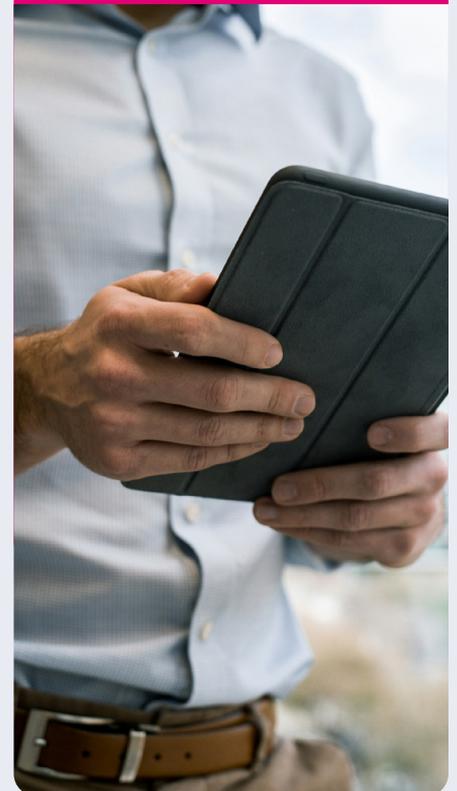

Record and Report on the Full Case History

Maintain control over who has access to what data and when to reduce risk to your agency. Admins can apply flexible role-based access controls based on different user needs and manage permissions for each case individually, with audit logs to learn who did what and when.

Secure and Scalable Cloud Deployment

REVIEW was designed with a cloud-first approach to help agencies easily provide secure, scalable access using trusted cloud providers like Microsoft Azure and Amazon Web Services.

MAGNET AXIOM & MAGNET DIGITAL INVESTIGATION SUITE INTEGRATION

✓ Utilize the processing and analytics power of Magnet AXIOM and easily import computer, mobile, and cloud evidence into REVIEW with just a few clicks. Combine with Magnet AUTOMATE to automatically export AXIOM processed evidence directly into REVIEW with no additional manual work required.
